DUK760M

DUK860M

If the canoe is heavily loaded or you need speed whilst hunting, fishing or on big lakes then the best solution is a motorised canoe.

Most large motor canoes are too unwieldy to portage over broken ground, difficult to transport by car or store in confined spaces.

Whitewater Developments detachable and extendable 'DUK' motor canoes offer easier portage, transport and storage in addition to multiple connection configurations.

TECHNICAL DATA

Materials	Gelcoated Polyester/CGM (fibre glass)			
Keel	Straight 'V' (150 deg)			
Tested in acc. with	DnV canoe standard §F20			
Model	DUK560M	DUK660M	DUK760M	DUK860M
LxBxH Cm	560x80x45/35	660x80x45/35	760x80x45/35	860x80x45/35
DUK250T hull sections	x1	x1	x1	x1
